

Ajshe Berisha

berishaajshe07@gmail.com

Prizren, Kosovë

Professional Summary

I am currently pursuing a Bachelor's degree in **Computer Science & Engineering**, where I am building my knowledge in programming, software development, and core computer science concepts.

Seeking to expand my learning beyond the classroom, I joined a **Data Science & AI** training program that provided hands-on experience through real-world projects. During the program, I worked with Python, SQL, GitHub, Databricks, Streamlit, and data analysis while strengthening my ability to collaborate and solve practical problems.

I enjoy challenging myself through new projects and continuously developing my technical skills. As I progress in my studies, I look forward to gaining industry experience, working on meaningful software projects, and continuing to grow both academically and professionally.

Technical Skills

Programming Languages

- Python
- Java
- SQL

Tools & Technologies

- Git & GitHub
- Streamlit
- Databricks
- MongoDB
- VS Code

Data & Analytics

- Pandas
- NumPy
- Data Analysis
- Data Visualization

Training & Certifications

Data Science & AI Bootcamp

Makerspace Innovation Center, Prizren | 2026

Completed a 3-month practical training focused on Data Science.

Gained hands-on experience with Python, SQL, Pandas, NumPy, Data Analysis, Data Visualization, and Machine Learning.

Worked with tools and technologies including GitHub, Databricks, Streamlit, and FastAPI.

Developed practical projects focused on data analysis and machine learning.

Languages
